**What are the differences in motor vehicle death rates between black and white population groups?**

Looking at all MV deaths

```
plot_exposure(exp.all)
bw_percent_diff_all %>% kable()
```

```
plot_exposure(exp.pveh)
bw_percent_diff_pveh %>% kable()
```

```
plot_exposure(exp.ped)
bw_percent_diff_ped %>% kable()
```

**To what extent does amount of travel account for these differences?**
